PROFILE

Computer Science graduate and Master's student in Computer Science with hands-on experience in web development (Laravel, PHP, MySQL, HTML, CSS), functional testing, and technical documentation. Built an HCM web application, developed 8 printable form templates for a hospital information system (SIMRS), and authored 5 user manuals. Seeking an internship in software quality assurance.

EDUCATION

Telkom University - Bandung, Indonesia 2025 - Present
Master Degree in Computer Science | GPA 3.54/4.00

- Relevant Coursework: Advanced AI, Digital Business.

Telkom University - Bandung, Indonesia 2022 - 2026
Bachelor Degree in Computer Science | GPA 3.51/4.00

- The 5th International Conference on Intelligent Cybernetics Technology & Applications 2025 (ICICyTA 2025)
- Research Paper: Entity Extraction in Scientific Articles in the Field of AI
- Relevant Coursework: Database System, Data Structure, Object Oriented Programming, Software Engineering, Platform Based Application, Artificial Intelligence (AI).

EXPERIENCE

IT Intern - PT. Jasa Medika Transmedic July 2026 – Sept 2026
Internship

- Authored 5 user manuals for SIMRS modules, documenting feature workflows, step-by-step instructions, and annotated screenshots for end users.
- Developed 8 printable PDF form templates for SIMRS using Laravel Blade, HTML, and CSS, mapping existing database fields to print layouts (e.g., discharge planning, medication instructions, midwifery care, surgical safety checklist, nutrition screening, maternity monitoring chart).
- Debugged data-mapping errors in print templates by correcting database field ID references, ensuring forms displayed accurate patient data.

Web Developer - Yakes Telkom Bandung July 2025 - Sept 2025
Internship

- Developed a Human Capital Management (HCM) web application using Laravel (PHP) following the MVC architecture.
- Implemented backend and frontend features for Talent Management, Recruitment Management, and Development Journey Management (DJM) modules, including CRUD operations, employee profile management, and recruitment workflow.
- Integrated Laravel components including routing, controllers, Blade templates, middleware, and MySQL database to support application functionality.
- Performed functional testing and debugging to ensure system features met functional requirements before deployment

PROJECT

Human Capital Management (HCM) Web Application | Laravel, PHP, MySQL, Blade

- Build Talent Management, Recruitment, and Development Journey modules with CRUD operations and recruitment workflows.
- Performed functional testing and debugging before deployment.

Software Development Job Simulation | Datacom

- Completed a simulation focussed on how the software development team at Datacom approaches their work.
- Reviewed a web application and planned for future improvements.
- Identified the root cause of bugs and implemented a fix to improve the application.

CERTIFICATIONS

Jira for Quality Assurance Testing – *Coursera* Oct 2026

CompTIA Security+ Prepatation Course – *Be Logix* Aug 2024

Introduction to Programming with C++ – *Be Logix* July 2023

TECHNICAL SKILLS

- **Web Development:** PHP, Laravel (MVC, Routing, Controllers, Middleware, Blade Templates), HTML, CSS, JavaScript
- **Database:** MySQL
- **Testing & Quality:** Functional Testing, Manual Testing, Debugging
- **Documentation:** Technical Writing, User Manual Creation, Process Documentation
- **Soft Skills:** Documentation Skills, Analytical Thinking, Attention to Details, Adaptability, Time Management
- **Languages:** Indonesian (Native), English (Professional Working Profiency | EPrT 467/677)

Organizational Experiences

HIMA IF Informatics 2024 - 2025
As a Second Treasurer. Responsible for conducting financial audits of BPH HIMA IF.

FORTRAN 2024 - 2025
As a Treasurer. Responsible for coordinating all finansial revenues and expenditure.
